Welcome to Conference Solutions

Welcome to Conference Solutions from Karina

You have the option to upload two company videos – one idea could be to upload an introduction about your organisation and give students some of the basics about your graduate program. You might also want to include a company or graduate teaser video.

Write a company bio or a description of what you look for in a new graduate. This is a great place to include your website, to direct students to more information about your organisation.

Add some commonly asked questions. This could really save you time on the day. You might also want to give students advice on what you are looking to hear when they meet you.

Meeting hub is a great way to connect with an impressive student that you might like to keep in contact with or get work history from. To make the most of this feature, make sure your booth has registered each staff member with the correct name.

Upload job descriptions, key recruitment dates, or other useful documentation.

Conference Solutions

About

Since its establishment in 1986, Conference Solutions has put its stamp of quality, professionalism and success on hundreds of events for public and private sector clients throughout regional and metropolitan Australia and South East Asia. We have staged meetings for 20 to 2000 delegates, coordinated large and small exhibitions, and managed accommodation and travel arrangements for groups of up to 5000.

Based in Canberra, the Nation's meeting place, we organise a wide variety of events on a local, national and international level. We'll take the burden of the many time consuming details off your shoulders and put our tried and tested management systems to work for you.

Frequently Asked Questions

Search

Will someone from Conference Solutions come to my event on the day? ✓

Can we do a hybrid event with face to face attendees and virtual attendees? ✓

What if my event has to be postponed for some unforeseeable reason? ✓

If you can't find what you are looking for, you might want to connect with the Exhibitor. If the exhibitor is available now, you can use the buttons on the screen to Request Live Chat or Request Live Meeting.
